

---

**Project Resources [1]**  
Define the responsibilities, relationships, authorities and performance criteria of project team members, and specify the basis for acquiring and assigning competent staff members and/or contractors to the project. The procurement of products and services required for each project should be planned and managed to achieve project objectives using the organization's procurement practices.

**There are no PSGs published for this topic; however, the topic is under review for future PSGs**
