

Office 365 Exchange Online: eDiscovery and Compliance

Chalk Talk

Target Audience:

This chalk talk is targeting Business Decision Makers and Technical staff within organizations which are concerned about regulatory compliance.

Key benefits

- No travel costs.
- Delivery by knowledgeable, dedicated product engineers that work and support the product daily.

Overview

This Chalk Talk is an exciting opportunity to learn about the new eDiscovery and Compliance functionality included in Exchange 2013 and Office 365 Exchange Online.

Using a combination of PowerPoint Slides and instructor led demonstrations, you will be able to understand how eDiscovery and Compliance can assist your organization with regulatory compliance and have the skills to implement immediately.

This chalk talk will focus on the following Topics:

- What is eDiscovery
- eDiscovery Topologies
- eDiscovery Components
- Configuring eDiscovery
- Litigation hold vs. In-place hold
- Retention Policies in Exchange Online
- Journal Rules
- Multi-mailbox search and Auditing Reports

Technical Highlights

After completing this course, you will be able to:

- Create Compliance policies
- Audit sensitive data
- Assist in meeting regulatory requirements

How the Offering Works

- The instructor provides a combination of Microsoft PowerPoint, live demos, and Q&A
- Delivering a rich and effective learning experience
