

Office 365 Lync Online Enablement

Chalk Talk

Target Audience:

This chalk talk is targeting Business Decision Makers and Technical staff within organizations planning to enable Lync Online for their organization.

Key benefits

- No travel costs.
- Delivery by knowledgeable, dedicated product engineers that work and support the product daily.

Overview

Lync Online Enablement Chalk Talk is an exciting opportunity to learn about the Lync Online and is designed to help customers experience service value quickly and to provide a smooth path to advance leveraging additional services in Office 365.

Using a combination of PowerPoint Slides and instructor led demonstrations, you will be able to develop a remediation and enablement plan for Lync Online.

As you extend from basic mail functions to enable your users to begin using Lync Online, we perform the required setup and configuration work for the Lync Online service to enable user presence and instant messaging. *This Offering requires completion of the Office 365 Core Enablement Offering.*

Key deliverable:

- Office 365 Lync configuration

How the Offering Works

- The instructor provides a combination of Microsoft PowerPoint, live demos, and Q&A
- Delivering a rich and effective learning experience
