# Policies for Consideration

## Multi-factor Authentication Policy

- Enables a means of stronger authentication for those agency users with privileged access to sensitive data and information systems

## Data Sharing Governance Policy

- Creates a governance structure that provides oversight over enterprise-wide data sharing; designed to ensure the efficient transfer, maintenance and security of data shared among state agencies

# Operations

*Dean Johnson*  
*GTA Chief Operating Officer*

# GETS Platform Updates

## Server

- Activities to transition to Unisys under way; service commencement planned for January 1, 2019.

## Managed Security Services

- Procurement will be narrowed to two qualified service providers this month; final selection and a signed contract are expected by the end of 2018.
- Our aim is to enhance existing security services for the GETS community. We're looking to add:
  - » Centralized security operations center
  - » Governance, risk management and compliance capability
  - » Security incident and event management function

# Brief Financial Update
