

## LicenseMatch Gold

A few years ago, the Georgia Technology Authority (GTA)\* launched LicenseMatch, which allows businesses to verify drivers' license information against the state database to prevent fraud, minimize loss, and document verification when anyone presents a license in connection with a variety of transactions or activities.

GTA is now announcing the availability of LicenseMatch Gold. More features have been added to LicenseMatch - [www.LicenseMatch.ga.gov](http://www.LicenseMatch.ga.gov) - to make verifying driver's license information even faster and easier. An online tool offered by the State of Georgia, LicenseMatch Gold offers a simple way – instantly – to stop anyone using a fraudulent Georgia driver's license or identification card to access services.

LicenseMatch Gold offers new features previously unavailable with the original LicenseMatch service:

- ❖ Using a customized scanner, you simply swipe a driver's license for data entry. This significantly reduces data entry errors and makes verification even faster.
- ❖ In addition to matching the license to state records, the results will also indicate the status of the license (suspended, revoked, etc.).

To learn more about LicenseMatch Gold, visit GTA's website at:

[http://gta.georgia.gov/00/channel\\_modifieddate/0.2096.1070969\\_71186438.00.html](http://gta.georgia.gov/00/channel_modifieddate/0.2096.1070969_71186438.00.html)

\* GTA is a state agency whose purpose is to deliver secure, reliable technology services and solutions, and provide guidance and oversight that lead to sound decisions for Georgia government. Learn more.... visit GTA on the web at <http://gta.georgia.gov/>
